“Sustainable procurement and supplier relations” CERTIFICATION LABEL

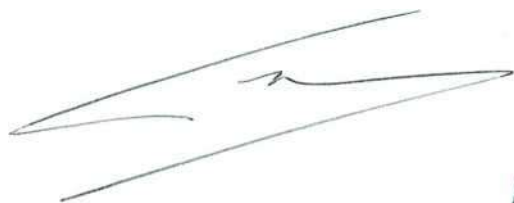

Le Médiateur des entreprises and the Conseil National des Achats certify that the organisation and management activities of **AEROPORTS DE PARIS (ADP)** provide reasonable assurance of compliance with the objectives and commitments set out in the label's reference framework, which is based on standard ISO 20400 Sustainable procurement -- Guidance.

Considering the evaluation report prepared by RSE France and the improvement action plan submitted by the applicant, the Certification Committee decided on 4 December 2024 to renew its certification for a period of three years, subject to compliance with annual follow-up evaluations.

As such, **AEROPORTS DE PARIS (ADP)** is included on the official list published and updated at the end of each month on the Mediation des entreprises website and on www.rfar.fr.

This certification is issued pending the official presentation of the label certificate at the next Sustainable Procurement Steering Committee meeting.

Pierre Pelouzet, Médiateur des Entreprises

Jean-Luc Baras
Président du CNA
